Thinking outside the box with skin care...

Years of helping people with a wide variety of skin types and skin care needs helped us in many ways but mostly it helped us to realize this: in order to be truly effective with total skin care, we must think Outside the Box.

Think about it...very few people fit neatly into the category boxes we're so used to seeing: Dry Skin uses 'XXX', Oily Skin uses 'YYY', ' Normal Skin uses 'ZZZ', Combo skin uses 'XYZ'. In fact, we more routinely hear from those who have variations of these norms.

Here are a few examples: "I have very dry skin but I have acne"; "I have mature skin but it's still oily"; "My skin is dry yet it is very sensitive"; "My skin is oily and acne prone but also very sensitive"; "My skin is pretty normal but sometimes I get icky dry patches"; "My skin is extremely oily yet at the same time it seems thick and it's like I have scales!!". The list goes on and on but hopefully these few examples help you get the jist of what Signature Natural skin care is about and why.

Skin is our body's largest organ - an organ we wear on the outside, one we live in and with every single day of our lives. The condition of our skin is influenced by many things including genetics, routine habits, environment, diet, as well as hormones and the aging process.

As such, doesn't it just make perfect sense that we all have unique skin care needs depending on each of these factors? We think so! That's why Signature Natural™ skin care products have been designed - not to box you in - but instead to cross many lines, benefiting everyone's very unique, variable and changing skin.

Made from the finest natural and organic ingredients, **Signature Natural Skin Care** helps your skin be exactly what it should be ~ healthy, radiant and beautiful!

Toners

Toning is a very important part of daily skin care. Used after cleansing, toner removes residual oil and dirt, tightens pores and balances the pH of your skin.

If you've skipped or avoided toner altogether because 1) it didn't seem to help or 2) it caused irritation - you will truly appreciate Signature Natural formulas.

Gentle...Carefully balanced to be soothing to the skin, these toners do not cause the stinging, burning and irritation commonly associated with toners and astringents. You will feel the difference!

Effective...Packed full of healthy botanicals, these toners REALLY do their job for your skin. You will see the difference!

Balance

Rich in natural antioxidants and humectants...

Potent Antioxidants (including Vitamin C) neutralize the free radicals that set out to damage and age your skin every day. They also stimulate collagen production thereby minimizing fine lines, scars and wrinkles.

Humectants and emollients soothe and soften while increasing your skin's ability to absorb and retain the moisture it needs.

As an added benefit, Balance contains DMAE, a naturally occurring substance that helps firm the skin and reduce fine lines and wrinkles.

Although Balance is good for absolutely all skin types, it is most highly appreciated by dry, mature and damaged skin.

Moisturizers

Signature Natural hydrators and moisturizers are designed to truly hydrate and nourish your skin - no matter your skin type.

Super oily? You may have worked at overly-drying your skin just to find it greasier than ever because dehydrating your skin has caused your oil glands to work over time. Super dry? You may have tried chemical or petroleum based products which coated your skin making it *temporarily feel* less dry but did nothing to hydrate and nourish your skin.

Oil Free Hydrator

Every single skin type will reap youthful benefits from daily use of this super light liquid hydrator. It hydrates and softens the skin while increasing firmness and elasticity.

Hyaluronic Acid is a natural lubricator found throughout the body, including deep within the skin (dermis). This wonderful substance is a major player in the intricate network of molecules that provide our skin with structure, support, and elasticity.

We are born with an abundance of Hyaluronic Acid, but unfortunately it is depleted with time. As this depletion occurs, the network breaks down, the dermis loses volume, and we begin to see the dreaded signs of aging – including wrinkles and loss of elasticity.

Hyaluronic Acid draws in moisture based on the needs of your skin - it can actually hold 1000 times its weight in water! It also forms a protective barrier that helps your skin retain this *much needed* moisture and volume.

Your skin will literally drink in this Oil Free Hydrator – with daily use you will notice a big difference in the way your skin looks and feels!

For optimum results, use morning and night and follow with Essence Revitalizing Serum.

Oily skin types *may not need* a moisturizer.

Rich Jojoba Moisturizer

Rich oils of Jojoba of Avocado deeply moisturize, hydrate and help balance your skins own sebum production. Packed full of vitamins, minerals and proteins, these beneficial oils also provide nourishment, regenerate skin cells and soften the skin.

Rooibos Tea, a powerful antioxidant, protects against skin damage and aging caused by free radicals, stimulates the generation of new skin cells, and stimulates the production of collagen. This super rich moisturizer is most appreciated by those with dehydrated skin caused by too much sun exposure, cold climate or over use of skin-drying products. Oily skin? Try using Rich Jojoba 2 or 3 nights a week to super hydrate and nourish your skin. Over time it will help regulate those over-active oil glands! **2oz jar \$12.95 | 4oz jar \$19.95 | .5oz sample \$3.50**

Essence Revitalizing Serum

Balanced to promote radiant, youthful skin, Essence is beneficial for absolutely all skin types.

Rooibos Tea is loaded with antioxidants, vitamins and minerals that have amazing effects on the skin. A powerful antioxidant (50 times more potent than green tea), Rooibos promotes healthy, youthful skin by neutralizing free radicals that damage and age the skin, stimulating the generation of new skin cells, and stimulating the production of collagen. Rooibos also soothes and detoxifies the skin and helps with skin conditions such as psoriasis, eczema, and acne.

DMAE firms the skin and reduces fine lines and wrinkles. MSM increases elasticity and helps heal and repair the skin. It helps with skin conditions such as eczema, psoriasis, rosacea, dermatitis and acne.

Jojoba, Aloe and Vegetable Glycerin soothe and hydrate, leaving your skin soft and supple.

For optimum results, use morning and night *after* Oil Free Hydrator. Allow Essence to absorb completely before applying additional Moisturizer.

If you prefer, you may choose to use Essence as a night-time only treatment. Oily skin types *may not need* additional moisturizer.
